ABOUT A CHAIR / AAC 14

Price from 3.479,00 NOK

DESIGN BY Hee Welling for HAY

Here, About a Chair serves as the perfect office chair, bringing a warm and welcoming feel to an otherwise rather cool and technical genre. The chair uses the same simple and familiar shell, while the elegant steel frame acquires a narrative charm when it is combined with the spherical castors. This version of About a Chair is perfect for official settings and an obvious choice for both large-scale corporate contexts and work-at-home offices – or maybe a dining chair? That could rewrite the concept of ‘meals on wheels’!

MATERIAL

Shell: Polypropylene
Base: Casted aluminium
