

PETIT STANDARD

PRODUCT FACT SHEET

PETIT STANDARD

DESIGN BY DANIEL RYBAKKEN, 2020

The result of an eight-year journey, Daniel Rybakken's Petit Standard is a study in precision and considered details. With the objective of creating a highly stackable chair, where the stackable features would actually enhance the chair's design, Petit Standard fuses elegance and functionality in an iconic design. Using die-cast aluminium and steel tubes that connect into a three-dimensional triangle, the lightweight frame has a distinctively geometric silhouette, which is counterbalanced by the warmth and natural quality of the oak-veneer seat and backrest. The high back and curved seat ensure great comfort, while the rigid tubing optimises the chair's strength and stacking ability, making it ideal for corporate environments, educational institutions, and private settings.

HIGHLIGHTS

- Lightweight and functional chair.
- High back and curved seat ensure great comfort.
- Iconic design with a geometric silhouette.
- Oak veneer seat and back made of 100% FSC-certified wood.
- Die-cast aluminium and steel tube frame.
- The rigid tubing construction optimises the chair's strength and stacking ability.
- FSC™ certified.
- Available in different colours and finishes.
- Stackable on floor up to 12 pcs.
- Stackable on trolley up to 12 pcs.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

DIMENSIONS

WIDTH 52,5 CM

DEPTH 50 CM

HEIGHT 83 CM

SEAT HEIGHT 47 CM

SEAT DEPTH 41,5 CM

MATERIALS

SEAT & BACK

Moulded plywood seat and back with inner veneer in beech, top and bottom veneer in oak.

BASE

Ø18 mm powder coated steel tube with die-cast aluminum connectors.

GLIDER

Plastic. Standard on all variants. Suitable for all floorings that are not too sensitive.

OPTIONS

Felt gliders for wooden floors.

CONSTRUCTION

Ø18 mm steel tube frame connected with 6 die-cast aluminium joints. Seat and back in moulded plywood mounted with black screws. Stacking units in black TPE plastic are mounted on the frame.

COUNTRY OF ORIGIN

China

CHAIR TROLLEY

Please see more information on Chair Trolley in our fact sheet.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
